ARE BACK AT
JOBS TODAYALL NIGHT CONFERENCE ENDS
IN SETTLEMENT APPROVED
BY RAILROADS AND
UNION OFFICIALS.

REACH AN AGREEMENT

Closed Shop Ceases to be an Issue
and Meal Period Question Will
Be Solved by a Joint
Commission.

BY ASSOCIATED PRESS

Chicago, July 30.—The strike of switchmen belonging to the Brotherhood of railroad trainmen and involving more than 2,500 men in the Chicago switching district, was called off before six o'clock this morning after an all night conference between representatives of the union and the railroad officials involved.

The settlement followed a series of conferences which lasted throughout the night, the last of which being a meeting of the conference committee, of managers of the roads affected and a committee of seven grand officers representing the order of Railroad Conductors, Brotherhood of Motive Engineers, Brotherhood of Firemen and Engineers, the latter representing the Brotherhood of Railway Trainmen.

This conference lasted for two hours after the vital questions at issue were disposed of the agreement was taken to James Murdoch, vice-president of the Brotherhood of Railway Trainmen who acted as spokesman for the strikers. He assured them that the agreement, and was immediately sent out for men to proceed to their work "without prejudice of loss of seniority."

According to a joint statement made by the conference, the "closed shop" which is claimed by the railroad managers to have been the primary cause for the calling of the strike, ceases to be an issue if it is being settled without the adoption of a closed shop rule or any rule that might fairly be considered as equivalent to such.

The meal period question is to be settled by a commission of eight meeting in New York.

Several minor issues are yet to be settled but arrangements were made for further meetings tomorrow at which time it is believed they may be adjusted.

Affected Large Number.

Conflicting figures have been given as to the number of men who actually quit work. Officials of the Brotherhood of Railway Trainmen asserted that they will be supported by 1,500 other switchmen not affiliated with the Switchmen's Union of North America, which was not in sympathy with the strike. A statement by the railroad managers committee placed the number of switchmen in the Chicago district at 6,500, of whom 2,500 belonged to the Brotherhood of Railway Trainmen.

Since the strike has been in progress railroad managers assert traffic has been only slightly affected and all possible freight has been moved without delay.

MAY EXAMINE FIRST
QUOTAS THIS WEEKMADISON COMPANY
AT CAMP DOUGLAS

BY ASSOCIATED PRESS

Madison, July 30.—Company G, Madison, with three officers and 165 men, left for Camp Douglas this morning.

In the order of their liability in military service as determined by the recent drawing at Washington, so that it may be possible that the first quota will be called up for examination the latter part of this week.

As soon as the names of the first men subject to call have been officially determined, they will be posted at the court house, and each man will be notified to appear before the board, whose headquarters are at the court house. The notice will bear the date on which he will be called up for physical examination. The men will report in three groups, one hundred in each group, one group a day.

The board will also continue its work of preparing the entire official list of the registered men in the order they will be called up, but the entire list will not be given out until after the first quota has been determined.

The local board will arrange the registration cards in the order fixed by the drawing so that the first card will be the card of the man whose serial number was first drawn, or 1. Each card following in order will signify the position of the man whose name it bears in his liability to call into the national army.

Thirty-eight members of the Ariadne's crew were killed by the explosion. All other sailors were saved.

The Ariadne was an old British cruiser, having been built in 1898. She was 450 feet long, 69 feet beam and had a maximum draft of 21 feet. Her complement consisted of 67 officers and men. The Ariadne carried 16 6-inch guns, 12 12-pounders and a number of smaller guns. It also was equipped with two submerged eighteen inch torpedo tubes.

Amsterdam, Netherlands, July 30.—The Germans are requisitioning wire, and particularly barbed wire, all over Belgium, according to the latest news from the frontier. The German wire is being taken off the top of one wire and followed by a man on the division of the fields. They are likewise breaking up more and more car tracks and light railroads, carrying off the rails and sleepers, as well as cars and locomotives.

Terra Haute, Ind., July 30.—A United States army balloon carrying eight officers and men from St. Louis landed on a farm five miles south of this city, early today.

Reports from the farm said that the men with the balloon stated they were compelled to land because of rents and the bag. The bag was set afire and destroyed after landing. The remainder of the equipment was placed in a farm wagon and started for this city.

JANESEVILLE PURE MILK COMPANY

RAILWAY OFFICIAL IS BUSY RECRUITER

PLANNING TO BUILD JANESEVILLE-MADISON TROLLEY LINE SOON

Wisconsin Interurban Company Files \$9,000,000 Trust Deed to Finance Construction Work.

With the filing at Madison of a \$9,000,000 trust deed by the Wisconsin Interurban Co. assurances of a substantial nature is given that the electric line between Janesville and Madison will become a reality. The company announces that the Janesville branch one of a number of lines proposed radiating from Madison, will be the first to be built.

The trust deed embraces all of the property of the company already created or to be hereafter created in Madison, Stoughton, Edgerton, Janesville, Portage, Sun Prairie, Columbus, Beaver Dam, Waupun, and City, Prairie du Sac, Richland Center and Viborg and all territory between these points and Madison, embracing practically 250 miles, with Madison as the center of the system.

The Janesville line will leave Madison at the capitol square at Pinckney street, on Washington avenue, pass through Edward Park, McFarland, Stoughton, Dunkirk and Edgerton to Janesville.

The railroad commission has authorized the first installment of bonds under the trust deed in the sum of \$600,000, and as work progresses is expected to authorize the entire amount of bonds necessary to complete the system.

Bonds to Be Sold.

Pain, Clegg & Carstensen, recognized as a reliable firm, have contracted with the company for the disposal of the \$600,000 issue. It is said cash has been advanced for construction.

John T. Adams of Columbus, Ohio, one of the foremost railroad constructors in the west, has entered into a contract with the company to construct and equip the entire system. The only drawback that possibly will further delay the construction of this much needed and desired public convenience may come from failure to obtain material for construction caused by the unsettled condition of the country brought about by war demands.

Mr. Adam stated, however, that he was certain he could obtain material enough to build from Madison to Stoughton before winter.

Jones Says True Thing Now.

Assurance was given by J. E. Jones, who has fought strenuously through seven years of delays, financial disappointments, indifference and sometimes active opposition to have these trolley lines a reality, that actual construction will be resumed immediately to extend the three miles of track that now stretches from the capitol along East Washington avenue to the city limits. Poles and wires are up on this track and only one railroad crossing is to be laid to get it into order for operation of cars.

TWENTY MORE SIGN FOR HOME GUARDS

Local Organization Now Has More Than Half Necessary Enrollment

—Join at Once.

Twenty men signed up for membership in the local Home Guard company on Saturday, increasing the total enrollment to fifty-seven, more than half the necessary quota of one hundred men. Among this number are several veterans of the Spanish American war and former national guard members, as well as older men who take this opportunity to do their bit.

As soon as the full strength has been reached, which is expected within the next few days, the muster will be sent to the governor for official recognition of the unit, and an attempt will be made to secure rifles and uniforms at the earliest possible date.

With the enlistments coming in so fast, organizers of the unit are beginning to make plans for the training of the company and its possible duties. It is likely that the Company M armory will be used for drilling once a week, and every effort will be made to put the company into shape for any possible emergency. With the mobilization of the militia into federal service the state administration is left without a military organization to care for life and property in case of possible disorder or calamity, and to take over this duty the Home Guard is organized.

Before any definite plans regarding the course to be pursued can be made, the recognition of the state must be secured, and this cannot be granted until the full quota has been secured. Every member who has already signed up is endeavoring to bring in others, and it is expected that the unit will be completely recruited by the end of the week.

Stop in at Koebelin's store on East Milwaukee street and sign up for the Home Guards.

The following men have joined since the last publication of members: S. Richards, Alfie Ruzook, Charles L. Hanson, Fred Church, W. W. Hagg, A. W. Griswold, W. H. Jelleyman, Alfred Pease, George A. Warner, Valentine J. Weber, Leo C. Rooney, and Fred Booth.

TWO BOYS DROWNED IN LAKES SUNDAY

Henry Leland Drowns While Chasing Hat at Rice Lake.—Thomas McGinnity Drowns at Koshkonong.

Edgerton, Wis., July 30.—At five o'clock yesterday afternoon Henry Leland, a lad of eighteen, was drowned at Rice Lake. He, together with several other boys, had been in the lake swimming and had started for home when the wind suddenly blew up, causing the boat to turn over, the boy volunteer to go after the hat was drowned. The body had not been recovered this morning at nine o'clock. It was thought that he was taken with cramps. His parents, who live at Ontario, Wis., were notified last evening and are expected this evening. He was employed on the Henry Larson farm at Allouez.

Thomas, the twelve-year-old son of Mr. and Mrs. Eugene McGinnity, was drowned yesterday afternoon in Lake Koshkonong near the Wesendorf farm. There were several young boys and girls who went to the lake yesterday afternoon from the McGinnity farm and Leonard Curran, Thomas McGinnity's son, got in boat to swim.

The railroad commission has authorized the first installment of bonds under the trust deed in the sum of \$600,000, and as work progresses is expected to authorize the entire amount of bonds necessary to complete the system.

Will Hatzell and H. Dallman motor to Milwaukee yesterday and spent the day with friends.

The community picnic to be held here August 9th promises to be an event worth your attendance. The ball games on the program will be worth while and in fact the committees in charge are sparing nothing to make the day a success.

Through the efforts of Co. M. of the Edgerton platoon had been contracted with the company to construct and equip the entire system.

The only drawback that possibly will further delay the construction of this much needed and desired public convenience may come from failure to obtain material for construction caused by the unsettled condition of the country brought about by war demands.

TO SELL ICE CREAM
FOR COMPANY FUND

Ladies of G. A. R. Plan Ice Cream and Cake Sale at Band Concert

This Evening.

As their contribution to the fund being raised by Company M to meet some of the expenses incurred after the unit is mobilized, the ladies of the G. A. R. have arranged a special sale of ice cream and cake to be held in connection with the band concert this evening in the Court House park.

The ladies will erect a stand at one side of the park from which they will distribute the ice cream, while the men of the company will serve as waiters, going through the crowd in all parts of the park, to assist the ladies in their sale.

The ladies of the G. A. R. adopted this method of raising funds for the company, in preference to the mere sale of a little money, and have made plans to supply a big demand with the cream at tonight's concert. All of the money taken in will be turned over to the company fund.

**EVANSVILLE WOMAN HIT
BY MOTOR SUNDAY NIGHT**

Lillian Weise of Evansville was knocked down and bruised on one arm last evening a little before nine o'clock in front of the Apollo theatre, when she stepped in front of a car driven by William F. Thorman, 332 Milton avenue. Miss Weise, in company with several friends, started across the street at the time of the first show, stepped out from between the parked cars started to run. In front of Mr. Thorman's car, to find that another motor was approaching on the other side. They stepped back, and though Mr. Thorman was driving but slowly, the fender struck Miss Weise, knocking her to the ground. She was taken to the office of Drs. Pember and Nuzum, where her bruised arm was treated.

COMPANY M EXPECTS TO LEAVE WEDNESDAY

No Orders Received But All Preparations for Departure Are Being Made—Get Many Signal Flags

With word from Madison that Company G of that city has been ordered out for parts unknown and that they were probably going to prepare a camp site for the local company, Captain E. N. Caldwell expect this morning that Captain M would be on the way for "Somewhere in Wisconsin" by Wednesday of this week. Notice received some time ago indicated that the local unit might expect entrainment the middle of the week and news since that time has confirmed the report.

With the first federal pay day in sight the company will be mustered for checking of the pay roll tomorrow morning at half past ten, by Major Buck, formerly of the Beloit company, and now commander of the battalion of which Company M forms a part.

Though no definite orders have been received regarding the movement of the unit on Wednesday, things at the armory have been put into shape for the immediate departure of the company. The drill is going ahead rapidly, with almost the entire company training as a single unit. So rapid has been the development of the men that it is felt they are adequately fitted to take up the more advanced form of training upon their encampment at some training point, where full equipment will be issued to the entire company.

In answer to Captain Caldwell's call for signal flags with which the men might learn the signal system required of every enlisted man, fifty pairs of flags have already been donated, and other ladies have promised thirty more pairs, all that the captain asked for and a sufficient number to train the entire company with. Staffs for the flags are being made, and signal will very shortly form a big part of the daily training and study of the men.

**MAIN ST. PAVING
STARTS TOMORROW**

Excavation of 2,600 Cubic Yards Preparatory to Laying Brick in Cement Work Will Start.

George Croft of Freeport, formerly of Janesville, in charge of the Gund and Graham construction company work for the paving of South Main street, between Racine and Sharon, today had a gang of men unloading road machinery preparatory to the starting of the work Tuesday morning. A steam plow tomorrow will start digging operations to facilitate excavation work.

There are 20,000 cubic yards of material to be moved from the street before the first of the monolithic pavement can be laid. It is expected that the work will take at least six weeks counting favorable working conditions and labor. The latter phase is one that is troublesome, the local market being in a badly depleted condition.

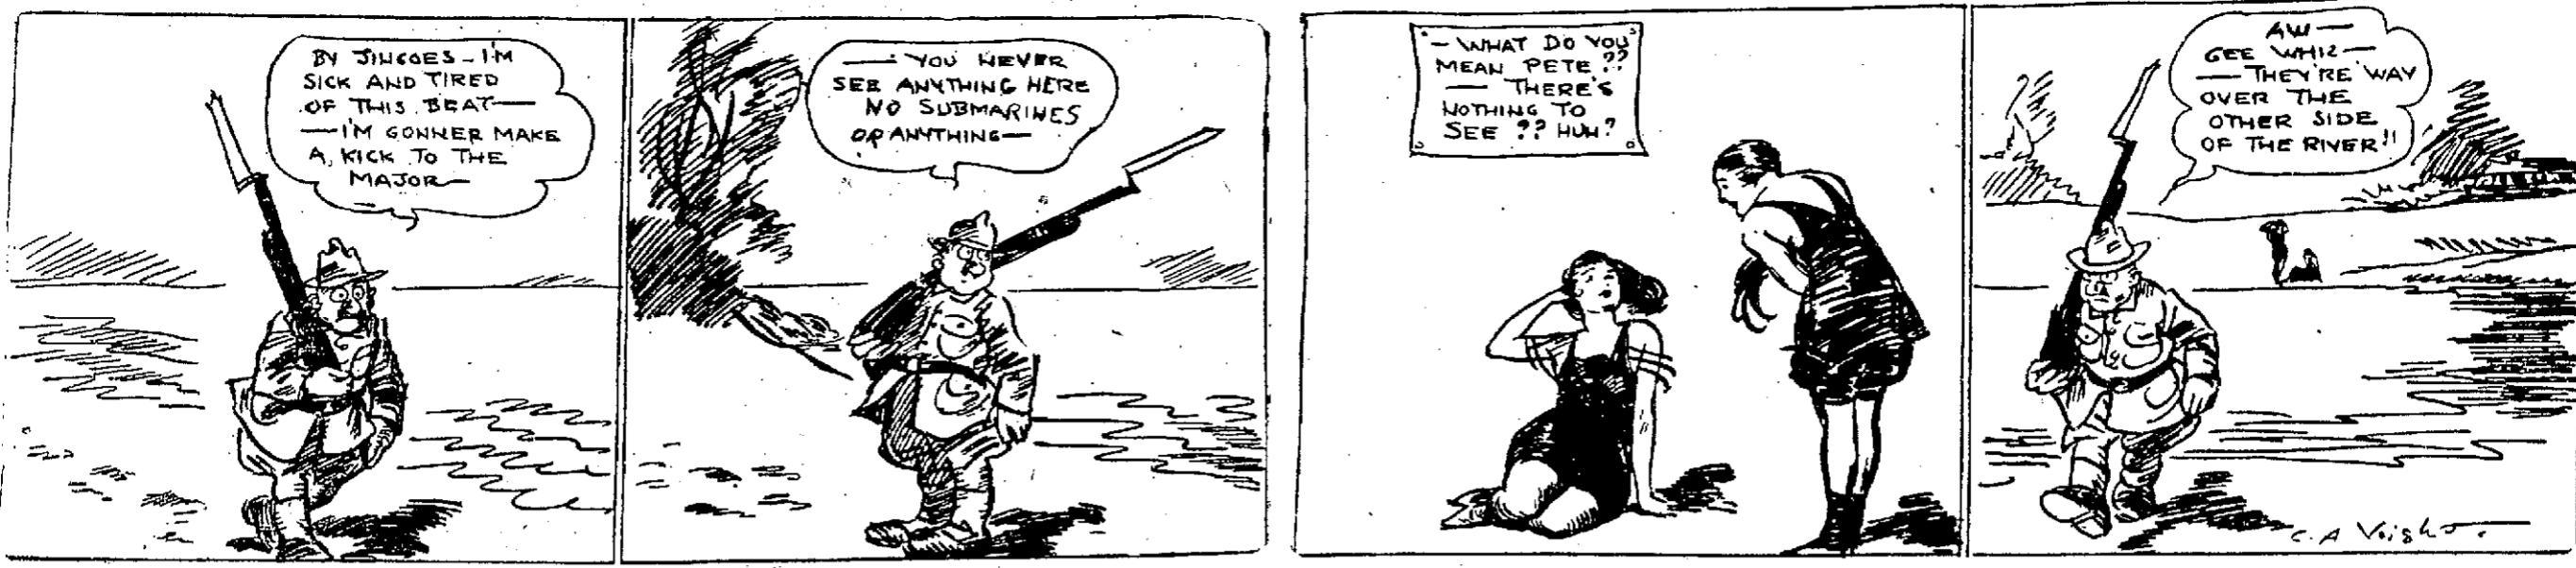

**SAVE HORSE CAUGHT IN MUD
AFTER SWIM DOWN THE RIVER**

Firemen were called to the fourth ward shortly after noon yesterday to rescue the horse of a junk dealer from the river marsh towards the south bank below the Jackson street bridge. The animal was being washed at the swimming hole at the foot of Western avenue. Small boys rode its back into deep water when the animal became scared and shaking off its cramps, a lumber wagon probably bound to swim with the current, it passed under the railroad and then the foot bridge and kept on going. Finally it started to go ashore back of the home of Lawrence Cronin. It was caught in the deep mud and weeds. A boat was secured and the animal had been rescued at the time the firemen with ropes had arrived.

BLOW WHITEWATER IN SIZZLING FRAY

CARDINALS TRIM YANKEES 7 TO 3 IN GAME WHICH WORKS ON ALL SPEEDS THROUGHOUT AFTERNOON.

CRODAN SAVES DAY

Called Up in Sixth to Drop Wet Blanket on Visitors Starting a Ram-page.—Does His Work Well.

HERE NEXT SUNDAY
ROCKFORD MAROONS
VS.
CARDINALS.

Five hundred fans braved torrid zone temperatures yesterday, and saw the Cardinals trim Whitewater 7 to 3, in one of those games which drags along like a donkey for half the way and then suddenly come to life and sprints forward like a twelve cylinder gas buggy on ninety cents a gallon gasoline. Our "ol fren," Crodans put the life in the Cardinals in the sixth when the present half of the co-op gang, generally known as Lathrop, derricked McShane and sent in the Geneva Lake lad to stave off what appeared to be coming on the horizon as a general slaughter for the locals, even though they led 5 to 3, at the time. Crodans pitched his head off the remainder of the game, and in his three and two-thirds innings performed better than Mitchell.

With a temperature of 92 in the shade and no shade it was anything but a day for the players. Old Sol steamed the pep from them at the start and it was no wonder there was little life in the fray up to the time Crodans was called.

Whitewater sent Lathrop all the way but he was not any better than Mitchell. The Cards clouted him for eleven safe bingles. However, the weather is accountable for the poor showing of the pitchers, and then again, the southwest wind which swept large clouds of dust across the diamond raised havoc with the ball so that little control was possible. From the stands the sweltering players in the dust storm looked like soldiers swept by a German gas attack.

Up to the fifth Whitewater had not registered a hit, but the cohort of "Duckie" Eberts had handed them a couple of runs on a stolen platter, as well. They got one in the first when Matt, a new shortstop, who came to Janesville with a telescope full of recommendations, let an easy grounder get away from him and Koeberth reached first. He stole second and when McShane bashed another one at Matt the latter hoisted it over the fence and Koeberth came around from second and cracked one into Koeberth's ribs in the third and he scored his second run after a steal, a sacrifice and a poor attempt to catch him at the plate. L. Breitmaier counted on the fifth for the Yankees' last score when Mitchell made his wild pitch. That closed it, for the visitors, although in the next inning the Cards got two runs, one on a base hit and that they would game a base hit with two runs, one of first and the other at third and one out. Then Mitchell was chased. Delaney took a chance when O'Neill, under the impression that the backstop would not throw to second with a man on third, did that very thing and caught him ten feet off the sack. Then Crodans struck McShane.

The Cards started to play ball, and after two were out in the first, they counted twice. Matt drew a pass, but walked at second on a fielder's choice, which placed Kerman at first.

COMPANY FUND WAS INCREASED BY THE DONATIONS GIVEN

OVER SIX HUNDRED DOLLARS TOTAL OF FLAG DAY SALE.

PATRIOTISM RAMPANT

Evening Demonstration Was One to Be Long Remembered—Streets Crowded to Witness Display.

Approximately the fund for Company M is increased by \$562.21 as the result of the Saturday "Flag and Flag Day" demonstration. The money collected by the sale of the flags by the young ladies and the Boy Scouts in the afternoon and evening and the money tossed into "Old Glory," which was carried by the Boy Scouts in the morning and a detachment of Boy Scouts and Company M "Rookies" in the evening. Taking it all in all it was a wonderful patriotic demonstration and had the business men of the city fully understood the fact that this means of raising money was being taken to avoid the usual passing of the contribution list, it is probable that the sum total would have been much larger.

The Saturday evening enthusiasm, when Reverend F. F. Lewis, Hon. A. E. Matheson and W. H. Dougherty spoke from autos, on the front seat of which was stationed an armed guard from Company M, exhorting the vast audiences that crowded the street from curb to curb, to patriotism, the music by the Boy Scout Band, which had donated its services, the songs by Mr. Danley, the marching of the hundred and forty members of Company M in line, the big flag with the Boy Scouts, was something that will be long remembered in Janesville.

There was but one regrettable incident during the evening and that the insistence of some auto owners to drive their cars through the crowds took their horns and ran the exhaust of the engines over-time, in passing points where speakers were talking. In many cases the auto so surrounded the boys with the flag that pedestrians could not reach it to throw their money into it and thus lessened the total contribution.

From the time the young girls, under the direction of Mrs. S. M. Smith and Miss Marjorie Mourat, began the sale of their flags about nine-thirty until seven when they ended their days labors, except for two hours in the afternoon, on the Sunday of flag day, were exhausted, these untiring laborers labored for the cause of Company M. Then the boy scouts took up the work and continued it until long after nine when the crowds had pretty well dispersed.

The day's program was under the auspices of the Commercial Club, a special committee with H. H. Blas as chairman, having been named to arrange for and handle the affair. It was designed to raise a sum desired by holding a "Flag Day and Flag Day" which can continue the former practice of passing lists through the business houses for contributions.

The merchants have been continually importuned for contributions for this and that purpose for the past months and by the means in vogue Saturday the citizens generally were given an opportunity to contribute.

The fund is not closed yet and any person who desires to make a contribution can do so by going to their home or to the Commercial Club office. All moneys thus raised will be added to the Company fund of the local military unit which will find need for it in the stirring days that will come when they are ordered into actual service.

The total amount raised on Saturday was \$614.97 but the actual expenses of flags and other items brought the total down to \$562.21.

One contribution was one hundred and seventy-five dollars by David Marowitz, there were several five dollar bills and one ten dollars and others of various denominations received during the day but the bulk of the money collected was in quarters, half dollars, dimes, nickels and several hundred pennies.

Persons conversant with congested street conditions stated Saturday night that never, not even on the nights of unusual celebrations, had the Janesville streets been so crowded with pedesrians and vehicles as on Saturday and with all that there was little or no unusual disturbance, everything moving off like clock work.

Bigler Rush Berg, who led the flag parade in the morning of Boy Scouts and then gave the stirring calls to attract attention to the sale of the flags during the afternoon and evening, was about the hardest worked man with possibly the exception of Laurence Griffin, who made the announcements through the megaphone. Both boys worked continuously from early morning until late at night.

ARREST LADS HERE WHO FLED HOME ON MOTHER'S ADVICE

Thirteen and Fifteen Years Old Green Bay Youngsters Have Been Away Three Months—Claim Father Brute.

It didn't matter to the local police department whether their father had threatened to kill their mother and them or that the mother advised them to run away to "the city" as she was advised to do likewise and as he result Frank Bonell, age fifteen and his brother, William, thirteen, were placed on a train yesterday for Green Bay, their home, from where they fled three months ago.

The dirt and soot begrimed youngsters were arrested Saturday night by Patrolman Lorenzo Cain of the depots when they hopped on the blind end of a abandoned passenger train, unable to give a good account for their following the example of the proverbial knight of the road were brought to the police station.

They told Chief Champion that their father was continually maltreating their mother and that he has already served a year for beating her. Three months ago she told them to run away for awhile as she was going to do the same, being unable to stand the abuse of the man whose hand she had taken in marriage. The lads did.

For a week or so past they had been staying with an aunt at Jefferson, son, a short distance from Chicago. Previous to that they had been tramping about the country. They exhibited ravenous appetites at the station and yesterday afternoon it was decided to send them home.

SAMMIES' MOVIE MAN HAS EXCITING TIME IN PARIS JULY 4TH

Paris, July 30.—Paul Rainey, millionaire American sportsman, finds making movies of American troops in frenzied Paris crowds far more hazardous than photographing wild beasts in African jungles.

Rainey is one of the official photographers for the American expeditionary force in France. He came to France with the American Red Cross but was prevailed on to turn his endeavors toward recording every important move of all the important American "Sammies."

Rainey's movies of lions, tigers and other wild beasts taken in British West Africa are known throughout America. It was he who first took Texas dogs to the jungle to track big game. Days and even weeks were required by the American picture hunter to secure good films of hippopotami, rhinoceros and other rare specimens of the African wilds.

The occasion of American troops marching through Paris on July 4, furnished Rainey more excitement than weeks of jungle hunting. Beginning at the Invalides, where General Pershing received the flags and banners which may some day be famous in American fighting records, Rainey began snapping the soldiers, officers and the crowd. Dashing at top speed with his movie camera through saddle-like masses of people he secured every move of the ceremony. Then came a wild drive through Paris in a big automobile, stopping occasionally to take a view of the marching Americans and the wild crowds that cheered them. Arriving at Lafayette's cemetery, the place of Lafayette's tomb, the intrepid photographer again braved frenzied crowds and forced his way into the graveyard. Assistants followed closely behind with big rolls of new film ready to recharge the cameras.

"Phew," said Rainey after it was all over. "Another day like this and I'm ready to go back to Africa with the gentle lions and tigers."

Rainey, who has deserted his plantation in Mississippi, his home is Cleveland, his New York apartment and his bungalow in Nairobi, Africa, to serve Uncle Sam with the same ardor he has recently snapped every important move made by the "Sammies" since they arrived in France. He was on the dock at the port, "somewhere in France," when the troops arrived. He followed them with his movies to their temporary camp near the town. A few days later found him cranking the box at the railroad station when the famous battalion art

rived to march through Paris. Braving all the dangers of Paris crowds, Rainey secured the best set of American movies made on the Fourth of July. He is going to follow the "Sammies" to their permanent camp "somewhere in France" and from there to the firing line.

Americans in movie houses will soon be able to see the work of the American millionaire photographer who is working for Uncle Sam just because the deeds of the American army must be preserved for posterity.

previously employed. He stated that he was a member of the Socialist Democratic party. When asked to state his objects of the war he gave the novel reply:

"Each belligerent should pay its own cost involved by the war. Belgium included. Alsace and Lorraine should be returned to France."

"But why are you making war?" was the next surprised question.

"Merely to make revolution certain afterwards," was the prompt reply.

The prisoner said he was a subscriber to the *Forward*, the German Socialists' paper, but that he had not received it for some time past, as the military authorities no longer allowed it to be delivered to the soldiers, especially at the front.

ENEMY PERISCOPE SMASHED BY A JAPANESE DESTROYER

(BY ASSOCIATED PRESS)

London, July 30.—Japanese torpedo boat destroyer smashed the periscope of a hostile submarine in the Mediterranean and undoubtedly destroyed the undersea boat, according to news received here today.

GERMAN SOCIALISTS REVOLT AFTER WAR

With the French Armistice, July 30, German prisoners belonging to the Socialist party, and who have been recently captured in the fighting on the French front, declared. Socialists in Germany are merely continuing the war for the purpose of making certain a revolution in Germany afterwards.

One of these Socialists who was taken prisoner in the capture of the famous "Dragon's cave," underlying "Lady road," near Hurebache, on June 26, had just come to the front from the aeroplane factories at Berlin, where he had been for some time

This photoplay dispels the illusion under which many fond parents labor that their children will never encounter the forces of evil and, without giving offense by an appeal to the lure of the senses, forcibly inculcates a much needed lesson by impressing upon parents their duty in the domain of education.

The appeal is entirely to father and mothers. The children should be left at home.

Heart and Home Problems

BY ELIZABETH THOMPSON

LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: (1) My hair is very oily. When I take it down at night it looks as if it had just been washed. Could you tell me how to remedy this?

(2) Is it wrong to write sensible notes to a boy when in school, if it does not interfere with school work?

(3) When entering the movies, if there is no usher, one should take the seat, the boy or the girl? Is there an usher?

(4) Why is it worse for a girl of fifteen to go to the movies with a boy than to go to any other entertainment?

(5) When a boy and a girl are turning a street corner, when it is necessary for the boy to change sides, should the girl turn and they just behind her, or should they both turn at once and then change?

(6) Is it wrong for a girl of fifteen to go buggy riding with a boy if they don't stay out late and act sensible?

(7) Make a tonic of one dram of tincture of alocholic cantharides, one-half dram of tincture of capstum, two drams of tincture of camomica, three-quarters of an ounce of alcohol. Shake before using. Massage nightly into the scalp with the fingers.

(8) Can help but interfere with school work if it is done in school hours?

(9) The girl, if there is an usher, will lead the way and the girl next. If she doesn't like the seats she can tell him so and he will try to find others.

(10) It is not worse. She should not go to the movies or to other entertainments at night with a boy. You are too young.

(5) It doesn't make any difference, either way the boy wishes is correct.

(6) A girl of fifteen is too young to consider going with a boy.

Dear Mrs. Thompson: I am a young man twenty-three years old. I have been called to the colors in the selective service draft and will probably have to go to camp soon. I have ninety dollars in the savings bank and no one dependent on me for support and there is no reason why I can expect to be exempt. Some of the other boys I know are going to draw their money out of the bank and have a good time while there is a chance. Would you advise me to do so, too? It is not likely to be of any use to me if I don't come back from the war.

ALBERT.

Why not compromise and take half of it out of the bank and take a little trip or something, but don't spend it foolishly. You will be glad, if you return, to have a little money in the bank to start out with again.

system, and make you a physical, if not a mental wreck in time. No doubt a few weeks of thorough hygienic treatment would relieve your headaches and put you in the way of regaining normal health. Why not hang up the fiddle and the bow for a few weeks and sojourn in some good sanatorium or hospital for treatment?

EVERYDAY ETIQUETTE

(Miss Hoyt will answer in this paper all questions on matters of etiquette addressed to her in care of this paper. If a personal answer is desired enclose a two-cent stamp.)

The waitress must pass everything on the left.

Ora: When you have finished eating, lay your knife and fork across your plate, with the handle resting on the edge. An orange is usually cut in two transversely, sprinkled with powdered sugar, and eaten with a spoon. There are orange spoons for this purpose. Do not duck your head toward your plate every time you take a mouthful. Lift the food to your mouth.

Pupil: Politeness in the school room is just as important as anywhere else. You were quite right to thank your teacher when she complies with any request of yours, such as spelling out a word for you, or explaining a paragraph in your language lesson. You should say "Thank you, Miss Jones," or whatever her name is.

GERMANS PUNISH FRENCH DISRESPECTFUL TO OFFICERS

SPECIAL TO THE GAZETTE

STOCKHOLM, July 30.—The special correspondent of a Stockholm paper writes from the German front in France of the treatment meted out to disrespectful Frenchmen who did not know the correct German method of addressing their superiors.

They were brought into a large room and compelled for two hours at a stretch to pass and repass a German officer's stuffed uniform, saluting each time they passed it and saying respectfully: "Bon jour, monsieur l'officier."

A sentinel with fixed bayonet stood near to see that the salutations were properly made.

FORTY YEARS AGO

The Janesville Daily Gazette, July 30, 1877.—The farmers are making it hot for the grain, and the sun is making it hot for the farmers.

News Is News Today and Not Tomorrow

THOSE of you who have traveled to other cities in this good land of ours know that by comparison this daily newspaper of yours—the Gazette—is far and away ahead of the average daily newspaper published in cities up to three or four times the size of Janesville. People have been kind enough to come and tell the publishers about it—these things which we already knew to be a fact. There are those people who are kind enough to say that the Gazette is more diversified in its offerings of news and features than papers published in cities of the metropolitan class. All of which goes to prove that where the people in a community are alive and wide-awake, where they demand the best in the newspaper the same as they also demand the best in commercial stocks, the best in education, in civic government and in all that surrounds this life of ours. This incentive to create and publish the best, has wonderfully whetted the desire of the publishers to go beyond really, the best, as measured for the small town paper and produce a paper such as *the Gazette, the equal of any inland paper in this United States.*

NEWS IS NEWS TODAY AND NOT TOMORROW

THE problem of studying the public mind or rather the public taste in dishing up current events is not an easy task and the publishers of the Gazette do not claim to have solved all of the problems of present day newspaper work, but insofar as their insight into newspaper work goes, it is their belief that the public so far as the newspaper is concerned feel that the proper balance has been met. The Daily Gazette beats the big fellows to it in news. To be sure not as elaborately, but the prime facts have been given twelve to twenty-four hours in advance of our metropolitan brothers. Those who have access to the metropolitan papers verify this frequently. Prove it for yourself any day. The Gazette believes it is meeting the public demand for new news and has developed in its years of business, the proper connections which only come through carefully weighing the various offerings so that the readers of this paper are given newspaper features in the manner and at the time most desirable. The covering of news and features is not confined to our own bailiwick. The world, national, state and local fields are called into service of activity in which the public is interested is covered as nearly as it is possible to cover it.

Recently the Gazette gathered together samples of all of its features, one only of each taken through the week and found there were four solid newspaper pages of these interesting items. These four pages were reproduced in newspaper page size and sent out to those who wished to subscribe, and with great effect. You who are familiar with the Gazette know every day what all these features are and those who are planning to become one of the Gazette's family will like to know what they all are. We can tell them more quickly, through this feature reproduction than in any other way and it will be sent to those who wish it.

News Is News Today and Not Tomorrow

THE Gazette aims to be the paper of the masses so far as it is possible. It is the desire of the publishers to make it a mouth piece of the people. No person who is in the reach of this printed voice but that can talk freely and bring to this paper his expression on any subject. If constructive in character and based upon fact and his name is known to the publishers he can have free use of the Gazette's columns. The primary object of any newspaper fit to bear the name is to champion the cause of the people and so far as it can be done this paper is published with that thought in mind. The Gazette is for the uplift of the community of which it is a part and stands ready always with time and money to forward any beneficial movement for the people and the community.

NEWS IS NEWS TODAY AND NOT TOMORROW

THE Gazette values deeply the assistance of its large family in the production of its daily paper. It looks with pride upon the ever increasing contributions of news and thought from its hundreds of readers. It is pleased that these friends feel free to bring or send to the office of publication many items of interest which appear in its columns each day. True we have a staff of trained men whose duty it is to gather news but they could not possibly accomplish what the interested readers make possible each day.

Just criticism is helpful and the Gazette invites that sort of criticism from its friends. Unjust criticism which offers nothing constructive in character is too frequently offered. This is the kind that helps no one. The suggestions and the offerings for betterment of the paper from the friends of the paper are both desirable and sought for and the publishers want every person who reads this to know that we prize the suggestions which you may have to offer for the betterment of this paper.
